Back & Forward Buttons

Navigates to the other webpages you have visited in the currently active tab.

Address/Search Bar

Allows you to go directly to a website by typing a URL. Also provides search results when a search term or an incomplete web address is typed into the box. Displays the address of the webpage in the currently active tab.

Web Page Tab

Each open web page is represented by a tab. The title of the webpage is displayed on the tab.

Active Tab

The tab you are currently viewing.

New Tab Button

Allows you to open a new web page within the browser window.

Favorites Bar

Provides quick access to your favorites (or "bookmarks"). The favorites bar is disabled by default and must be turned on in settings.

Command Bar

Contains tools to customize the look and settings of the browser. The command bar is disabled by default and must be turned on in settings.

Browser Controls:

Mome: Returns you to the browser's home page.

Favorites Center: Lists all of your favorites (or "bookmarks").

Tools: Provides access to functions such as printing, settings, and safety options.

Scroll Bar

Allows you to move through the document if it cannot fit on the screen.

Hyperlink (or "link" for short)

A word or image on a web page that, when clicked, takes you a different page. Links are usually distinguished by being a different color than the surrounding text and are sometimes underlined.
