**Google Drive Account**

*Points* to the *location* of each of your files in the cloud.

**Remember:** The files themselves are stored in the cloud.

---

**The “Cloud”**

Contains *everybody’s* files!

**Note:** Google, Apple, Microsoft, etc all have their own, *separate* clouds!

---

*Larry and Sergey are sharing the same photo.*

---

*Files that belong to other Google Drive users*
